

# Reduce downtime and save money by preserving the life of your electronics.

You may know that Tune® delivers 10% or more savings\* by reducing your use of energy. Did you know that **Tune® can also preserve your electronic appliances and equipment?** Tune® lowers the stress placed on your equipment, prolonging their lives and minimizing downtime. Just see what our customers are saying **across industries and around the country.**

“The maintenance budgets are down in the fast food stores where we installed new technology including Tune®. **Some of the budgets are down as much as 40%.**”

Steve Marshall  
CEO at Gazelle Power Solutions  
Louisville, KY

- ✗ Reduce stress on electronic equipment
- ✗ Experience fewer equipment failures
- ✗ Spend less time on maintenance
- + **Spend more time on your business**

Real maintenance savings for your business.

# Save electronics, save your time and your money.

Some of the places you'll find Tune®:

“...we are already seeing savings in maintenance... **I don't get 5 calls a day about the issues at the new pumping station...**”

Rodger Lingerfelt  
Mayor of Rainsville, AL

“I haven't replaced a single \$28 switch since installing the filters... **my annual savings are over \$2,000 a year just on this single part. I am thrilled.**”

David, Plant Manager  
Richmond, VA
