

Shared Savings Program

Easy Decision. Big Savings.

13%

Average Savings
Across Industries

With the Tune® Shared Savings Program, a **minimal commitment*** allows you to participate in **significant savings** out of the gate. Tune® provides the devices at its own cost, and we share in the savings delivered to your business. It's that simple. Your Tune® installation is not only a wise financial decision but also a decision to save our planet's resources.

Example: Shared Savings Program Annual Impact*

Annual Electricity	13% Savings	6.5% to Customer	6.5% to Tune®
\$264,000	\$34,320	\$17,160	\$17,160
2,200,000 kWh	286,000 kWh		

286,000 kWh electricity savings is roughly equivalent to:†

203

Metric tons of CO₂
(Carbon Dioxide)

43.7

Gasoline-powered
passenger vehicles
driven for one year

39.4

Homes' electricity
use for one year

469

Barrels of oil
consumed

70.1

Tons of waste
recycled instead of
landfilled

Industry Averages

Manufacturing

996,516 Annual kWh	\$139,512 Annual Spend	13% Savings
-----------------------	---------------------------	----------------

Multi-Dwelling + Hotels

2,232,000 Annual kWh	\$211,176 Annual Spend	15% Savings
-------------------------	---------------------------	----------------

Quick Serve Restaurant

40,912 Annual kWh	\$16,345 Annual Spend	11% Savings
----------------------	--------------------------	----------------

Office Building

2,280,000 Annual kWh	\$210,419 Annual Spend	15% Savings
-------------------------	---------------------------	----------------

Medical

1,675,299 Annual kWh	\$251,280 Annual Spend	12% Savings
-------------------------	---------------------------	----------------

Education

526,600 Annual kWh	\$42,128 Annual Spend	12% Savings
-----------------------	--------------------------	----------------

Simple Energy Savings.
